

**01. None of this is real. (5:40)**

its like none of this is real (its like none of this is real). It's like, none of this is real. It's like none of this is real.

One day I'll come back to my home / and I won't feel so all alone / I'll look at how everyone has grown / and I'll feel it in my bones.

It's like, none of this is \*real\*. It's like \*none of this\* is real. It's like none of this is real it's like, none of this, is real.

I'm rethinking everything I knew / and I think that you are too / I don't know what we want to do / but I want to do it with you.

It's like none of this is real. It's like, none of \*this\* is real. IT's like none of this is REAL. (its like noneofthis is real)

And as the day draws to a close / we take off all of our clothes / and we look down to our toes / and I suppose / that none of this is real / How does that make you feel? / Would you like to share a meal? / None of this is real.

It's like (none of this is real) etc. ... none of this is real.
